UKD Industries, as an artisanal workshop, our priority has always been to ensure that each piece that leaves our workshop is crafted to the best of our ability; with the principles of carpentry strictly adhered to and innovation in the engineering and craftsmanship that ensure that our art keeps up with the times. Each new carpenter who we recruit brings their own skill to the table. We have lathe specialists, carvers, roofers, polishers, third generation carpenters; we take each skill and hone it with high expertise in the industry.

UKD Industries, envisions itself as a company for design that is rooted in the solid wood industry in Tamilnadu. A company based on the principles of fair trade and sustainable development, with the intention of reducing our impact on the environment but to also empower our partner artisans, designers and vendors and promote the growth of our contemporaries.

As a young, conscious and motivated team with a unique company module, we aspire to play an active role in the integration of holistic design into the woodworking sector.
